Papers incorporating the results of research on regional geology of the African cratons and mobile belts, economic geology, geophysics, structure, Quaternary geology and analysis of sedimentary basins are featured.

Submission of papers for publication is welcomed. Contributors should send three copies of completed manuscripts to the Editor-in-Chief or any of the Editorial Board.

In addition the journal will include book reviews, short notes and selected papers from the proceedings of conferences, symposia and workshops on any aspect of African geology and related subjects.
